

FOR IMMEDIATE RELEASE**Hexion Inc. Announces Second Quarter 2018 Results****Second Quarter 2018 Highlights**

- Net sales of \$995 million, a 9% increase versus prior year
- Net loss of \$21 million
- Segment EBITDA of \$128 million, a 28% increase versus prior year
- Liquidity of \$322 million

COLUMBUS, Ohio - (August 7, 2018) - Hexion Inc. (“Hexion” or the “Company”) today announced results for the second quarter ended June 30, 2018.

“Strong results in our base epoxy resins and forest products businesses drove year over year Segment EBITDA gains of 28% and sales growth of 9% in the second quarter of 2018,” said Craig A. Rogerson, Chairman, President and CEO. “Our results also reflected improved performance in our specialty epoxy resins business, primarily due to ongoing growth in our waterborne coatings business, as well as the positive impact of our recent structural cost reduction initiatives.”

Mr. Rogerson added: “We continue to expect strong year-over-year Segment EBITDA growth in the second half of 2018 reflecting solid demand in our global forest products business and continued strength in market fundamentals in base epoxy resins, which are expected to persist for the foreseeable future. We also anticipate that continued environmental regulation and long-term secular growth in renewable energy will support gains in our waterborne coatings and wind energy business over the next few years. Finally, we generated \$41 million of operating cash flow in the second quarter and we remain focused on generating improved cash flow in 2018.”

Second Quarter 2018 Results

Net Sales. Net sales for the quarter ended June 30, 2018 were \$995 million, an increase of 9% compared with \$912 million in the prior year period. The increase in reported net sales was driven by the pass-through of higher raw material costs and pricing actions primarily in the base epoxy resins business.

Segment EBITDA. Segment EBITDA for the quarter ended June 30, 2018 was \$128 million, an increase of 28% compared with the prior year period. Segment EBITDA in the second quarter of 2018 increased by \$29 million, or 29%, when adjusted for divestitures. Second quarter 2018 results reflected cost reduction actions and improved margins primarily in the Company’s base epoxy resins, phenolic specialty resins, and global formaldehyde businesses.

Global Restructuring Programs

Hexion recently identified \$53 million of structural cost savings that it expects to realize during 2018. In the first six months of 2018, the Company achieved \$25 million of cost savings, including reductions in selling, general and administrative expenses and targeted site rationalizations. At June 30, 2018, Hexion had approximately \$28 million of total in-process savings that it expects to be substantially realized by year-end 2018.

Segment Results

Following are net sales and Segment EBITDA by reportable segment for the second quarter ended June 30, 2018 and 2017. See “Non-U.S. GAAP Measures” for further information regarding Segment EBITDA and a reconciliation of net loss to Segment EBITDA.

Liquidity and Capital Resources

At June 30, 2018, Hexion had total debt of approximately \$3.8 billion compared to \$3.7 billion at December 31, 2017. In addition, at June 30, 2018, the Company had \$322 million in liquidity comprised of \$114 million of unrestricted cash and cash equivalents, \$180 million of borrowings available under the Company’s senior secured asset-based revolving credit facility (the “ABL Facility”) and \$28 million of time drafts and availability under credit facilities at certain international subsidiaries. Hexion expects to have adequate liquidity to fund its ongoing operations for the next twelve months from cash on its balance sheet, cash flows provided by operating activities and amounts available for borrowings under its credit facilities.

Earnings Call

Hexion will host a teleconference to discuss Second Quarter 2018 results on Tuesday, August 7, 2018, at 8:00 a.m. Eastern Time. Interested parties are asked to dial-in approximately 10 minutes before the call begins at the following numbers:

Covenant Compliance

The instruments that govern the Company's indebtedness contain, among other provisions, restrictive covenants regarding indebtedness (including an Adjusted EBITDA to Fixed Charges ratio incurrence test), dividends and distributions, mergers and acquisitions, asset sales, affiliate transactions and capital expenditures.

The indentures that govern the Company's 6.625% First-Priority Senior Secured Notes, 10.00% First-Priority Senior Secured Notes, 10.375% First-Priority Senior Secured Notes, 13.75% Senior Secured Notes and 9.00% Second-Priority Senior Secured Notes (collectively, the "Secured Indentures") contain an Adjusted EBITDA to Fixed Charges ratio incurrence test which may restrict our ability to take certain actions such as incurring additional debt or making acquisitions if the Company is unable to meet this ratio (measured on a last twelve months, or LTM, basis) of at least 2.0:1. The Adjusted EBITDA to Fixed Charges ratio under the Secured Indentures is generally defined as the ratio of (a) Adjusted EBITDA to (b) net interest expense excluding the amortization or write-off of deferred financing costs, each measured on a last twelve months ("LTM") basis. See "Non-U.S. GAAP Measures" for further information regarding Adjusted EBITDA and Schedule 5 to the release for a calculation of the Adjusted EBITDA to Fixed Charges ratio.

The Company's ABL Facility does not have any financial maintenance covenant other than a minimum Fixed Charge Coverage Ratio of 1.0 to 1.0 that would only apply if the Company's availability under the ABL Facility at any time is less than the greater of (a) \$35 million and (b) 12.5% of the lesser of the borrowing base and the total ABL Facility commitments at such time. The Fixed Charge Coverage Ratio under the credit agreement governing the ABL Facility is generally defined as the ratio of (a) Adjusted EBITDA minus non-financed capital expenditures and cash taxes to (b) debt service plus cash interest expense plus certain restricted payments, each measured on an LTM basis. At June 30, 2018, the Company's availability under the ABL Facility exceeded such levels; therefore, the minimum fixed charge coverage ratio did not apply.

Non-U.S. GAAP Measures

Segment EBITDA is defined as EBITDA adjusted to exclude certain non-cash and non-recurring expenses. Segment EBITDA is an important measure used by the Company's senior management and board of directors to evaluate operating results and allocate capital resources among segments. Corporate and Other primarily represents certain corporate, general and administrative expenses that are not allocated to the other segments. Segment EBITDA should not be considered a substitute for net loss or other results reported in accordance with U.S. GAAP. Segment EBITDA may not be comparable to similarly titled measures reported by other companies. Adjusted Segment EBITDA is defined as Segment EBITDA adjusted for disposition. See Schedule 4 to this release for reconciliation of net loss to Segment EBITDA and Adjusted Segment EBITDA.

Adjusted EBITDA is defined as EBITDA adjusted for certain non-cash and certain non-recurring items and other adjustments calculated on a pro forma basis, including the expected future cost savings from business optimization programs or other programs and the expected future impact of acquisitions, in each case as determined under the governing debt instrument. As the Company is highly leveraged, it believes that including the supplemental adjustments that are made to calculate Adjusted EBITDA provides additional information to investors about the Company's ability to comply with its financial covenants and to obtain additional debt in the future. Adjusted EBITDA and Fixed Charges are not defined terms under U.S. GAAP. Adjusted EBITDA is not a measure of financial condition, liquidity or profitability, and should not be considered as an alternative to net loss determined in accordance with U.S. GAAP or operating cash flows determined in accordance with U.S. GAAP. Additionally, Adjusted EBITDA is not intended to be a measure of free cash flow for management's discretionary use, as it does not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense (because the Company uses capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate revenue), working capital needs, tax payments (because the payment of taxes is part of our operations, it is a necessary element of our costs and ability to operate), non-recurring expenses and capital expenditures. Fixed Charges under the Secured Indentures should not be considered an alternative to interest expense. See Schedule 5 to this release for reconciliation of net loss to Adjusted EBITDA and the Fixed Charges Ratio.

Forward Looking Statements

Certain statements in this press release are forward-looking statements within the meaning of and made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In addition, our management may from time to time make oral forward-looking statements. All statements, other than statements of historical facts, are forward-looking statements. Forward-looking statements may be identified by the words “believe,” “expect,” “anticipate,” “project,” “plan,” “estimate,” “may,” “will,” “could,” “should,” “seek” or “intend” and similar expressions. Forward-looking statements reflect our current expectations and assumptions regarding our business, the economy and other future events and conditions and are based on currently available financial, economic and competitive data and our current business plans. Actual results could vary materially depending on risks and uncertainties that may affect our operations, markets, services, prices and other factors as discussed in the Risk Factors section of our filings with the Securities and Exchange Commission (the “SEC”). While we believe our assumptions are reasonable, we caution you against relying on any forward-looking statements as it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to, a weakening of global economic and financial conditions, interruptions in the supply of or increased cost of raw materials, the loss of, or difficulties with the further realization of, cost savings in connection with our strategic initiatives, the impact of our substantial indebtedness, our failure to comply with financial covenants under our credit facilities or other debt, pricing actions by our competitors that could affect our operating margins, changes in governmental regulations and related compliance and litigation costs and the other factors listed in our SEC filings. For a more detailed discussion of these and other risk factors, see the Risk Factors section in our most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q and our other filings made with the SEC. All forward-looking statements are expressly qualified in their entirety by this cautionary notice. The forward-looking statements made by us speak only as of the date on which they are made. Factors or events that could cause our actual results to differ may emerge from time to time. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

- (1) Primarily represents cost related to headcount reduction expenses and plant rationalization costs related to in-process and recently completed cost reduction programs, termination costs and other costs associated with business realignments.
- (2) Represents non-cash gains resulting from pension and postretirement benefit plan liability remeasurements.
- (3) Primarily includes certain professional fees related to strategic projects, retention program costs, business optimization expenses, management fees and expenses related to legacy liabilities.
- (4) Represents pro forma impact of in-process cost reduction programs savings. Cost reduction program savings represent the unrealized headcount reduction savings and plant rationalization savings related to cost reduction programs and other unrealized savings associated with the Company's business realignments activities, and represent our estimate of the unrealized savings from such initiatives that would have been realized had the related actions been completed at the beginning of the period presented. The savings are calculated based on actual costs of exiting headcount and elimination or reduction of site costs.
- (5) Represents pro forma LTM Adjusted EBITDA impact of the ATG disposition, which occurred during the first quarter of 2018.
- (6) Reflects pro forma interest expense based on interest rates at June 30, 2018.
- (7) The Company's ability to incur additional indebtedness, among other actions, is restricted under the Secured Indentures, unless the Company has an Adjusted EBITDA to Fixed Charges ratio of at least 2.0 to 1.0. As of June 30, 2018, we did not satisfy this test. As a result, we are subject to restrictions on our ability to incur additional indebtedness and to make investments; however, there are exceptions to these restrictions, including exceptions that permit indebtedness under our ABL Facility (available borrowings of which were \$180 at June 30, 2018).
