

Momentive Specialty Chemicals' New Coating Resins Plant in Thailand Boasts Sustainable Features

August 15, 2013

COLUMBUS, Ohio (Aug. 15, 2013) – Constructed to minimize its potential impact on the surrounding area, Momentive Specialty Chemicals Inc. (“Momentive Specialty Chemicals,” “MSC” or the “Company”) recently announced the successful start-up of its new plant in Chonburi, Thailand. The plant, which significantly increased the Company’s capacity to produce acrylic-based resins and service customers locally, was designed for sustainable manufacturing practices.

“The engineering design delivers enhanced energy preservation through high-efficiency heating and cooling systems,” said Julia Harp, Senior Vice President, Momentive Specialty Chemicals. “Improvements gained through automation and the utilization of the latest generation of technologies allow us to deliver both consistent product quality and achieve emission levels that are well within regulatory guidelines.”

The site, which is located on land purchased by the Company in the Pinthong Industrial Estate Park, produces a broad range of acrylic resins designed for use primarily in coatings, adhesives, and building and construction applications. To mark the successful start-up of the facility, MSC leadership will be hosting customers and invited guests to a celebration Sept. 10 – 11.

The manufacturing design and operations of the Chonburi site are aligned with the Company’s overall sustainability initiatives. These initiatives drive an integrated business approach that creates long-term stakeholder value through responsible stewardship of assets and products, the environment and a commitment to social responsibility.

Momentive recently announced the publication of its latest sustainability report entitled “Sustainability: A Top to Bottom Approach.” The report provides expanded metrics related to environmental and safety performance, as well as an update on a number of ongoing sustainability initiatives. For example, greenhouse gas emissions have been reduced by six percent collectively for Momentive Performance Materials (MPM) and MSC since 2010. In addition, MPM and MSC saw its aggregate Occupation Illness and Injuries Rate performance improve significantly as the injury rate declined by 66.9 percent over the last six years.

About the Company

Based in Columbus, Ohio, Momentive Specialty Chemicals Inc. (formerly known as Hexion Specialty Chemicals, Inc.) is the global leader in thermoset resins. Momentive Specialty Chemicals Inc. serves the global wood and industrial markets through a broad range of thermoset technologies, specialty products and technical support for customers in a diverse range of applications and industries. Momentive Specialty Chemicals Inc. is an indirect wholly owned subsidiary of Momentive Performance Materials Holdings LLC.

About Momentive

Momentive Performance Materials Holdings LLC (“Momentive”) is the ultimate parent company of Momentive Performance Materials Inc. and Momentive Specialty Chemicals Inc. Momentive is a global leader in specialty chemicals and materials, with a broad range of advanced specialty products that help industrial and consumer companies support and improve everyday life. Its technology portfolio delivers tailored solutions to meet the diverse needs of its customers around the world. Momentive was formed in October 2010 through the combination of entities that indirectly owned Momentive Performance

Materials Inc. and Hexion Specialty Chemicals Inc. The capital structures and legal entity structures of both Momentive Performance Materials Inc. and Momentive Specialty Chemicals Inc. (formerly known as Hexion Specialty Chemicals, Inc.), and their respective subsidiaries and direct parent companies, remain separate. Momentive Performance Materials Inc. and Momentive Specialty Chemicals Inc. file separate financial and other reports with the Securities and Exchange Commission. Momentive is controlled by investment funds affiliated with Apollo Global Management, LLC. Additional information about Momentive and its products is available at www.momentive.com.
