

Technical Data Sheet

MEA Triazine 50%

Description

MEA Triazine 50% is a clear to light yellow liquid with a slight amine odor. Its principal use is to scavenge hydrogen sulfide from gas and oil. The product is usually shipped in bulk tank truck and is available from Hexion plants located at Diboll, TX, Springfield, OR and Edmonton, AB. Products are also available from manufacturing facilities in Asia and Latin America.

Custom formulations based on this product can be blended to meet customer finished product requirements.

Our product is typically supplied in bulk truck. Hexion also offers a variety of packaging options depending on regional capabilities
